

ALUGLASS *Double glazing profiles*

**FBS Profilati srl, fondata nel 1999
dalla seconda generazione
imprenditoriale della nostra famiglia,
è un'azienda dinamica che trae la sua
essenza dal concept del “MADE IN ITALY”
tramandato attraverso l'esperienza
delle sue figure storiche che dal 1964
si dedicano con entusiasmo alla
progettazione e produzione di profili
decorativi in alluminio e serrandine.
Nella nostra sede di Settimo Milanese, che
si sviluppa su una superficie complessiva
di 5000 m², creiamo prodotti sempre
all'avanguardia e al passo con le più
moderne tendenze del mondo del design
per arredamento di interni a partire
da materie prime di qualità eccellente.**

FBS Profilati srl, founded in 1999 by the second managerial generation of our family, is a dynamic company that draws its essence from the concept of “MADE IN ITALY” handed down through the experience of senior figures who have enthusiastically committed to designing and manufacturing aluminium decorative profiles and tambour doors since 1964.

In our headquarters in Settimo Milanese, stretching over a 5000m² area, we create forefront and contemporary up-to-date products with modern furniture design trends, exclusively using excellent raw materials.

ALUGLASS

PROFILI DECORATIVI PER VETRO CAMERA

Da oltre 40 anni proponiamo la nostra linea di profili decorativi in alluminio ALUGLASS, compendio di tutto ciò che rappresenta la nostra azienda: la padronanza impeccabile della tecnica e la costante ricerca del bello che conferisce un tocco personalizzabile a finestre e vetrate isolanti trasformandole così in veri pezzi unici. Le nostre barre profilate a freddo, leggere ma al contempo resistenti, sono sempre tagliate a 90° e grazie ai molteplici accessori si ottengono originali motivi senza l'utilizzo di macchinari. Abbinare ai creativi inserti ed accessori e declinate in svariate sfumature di colore, si abbinano perfettamente ai diversi stili abitativi.

PROFILI DECORATIVI PER VETRO PIANO (ASTRAGAL bars)

La nostra gamma di profili autoadesivi permette di riprodurre lo stesso look anche su vetro piano, pareti divisorie in vetro o su materiali diversi come boiserie, marmo, carta da parati e specchi. E' possibile così porre l'accento su un tono minimalista e contemporaneo oppure classico e tradizionale. Le possibilità e combinazioni sono davvero infinite. Esattamente come la collezione per vetro camera, anche in questo caso la preparazione e assemblaggio dei profili con i relativi giunti è semplice e non necessita di attrezzature complesse.

DECORATIVE PROFILES FOR DOUBLE GLAZING

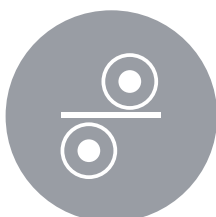

For over 40 years we have been offering our line of ALUGLASS decorative aluminium profiles, a compendium of everything that our company represents: the impeccable mastery of the technique and the constant search for beauty that gives a customizable touch to windows and insulating glass, thus transforming them into truly unique pieces. Our roll formed aluminium bars, light but resistant at the same time, are always cut at 90° and thanks to the many accessories, original motifs are obtained without the use of machinery. Combined with creative inserts and accessories and available in various shades of colour, they perfectly match different living styles.

DECORATIVE PROFILES FOR SINGLE GLASS (ASTRAGAL bars)

Our range of self-adhesive profiles allows you to reproduce the same look even on single glass partition walls or on different materials such as boiserie, marble, wallpaper and mirrors. It is thus possible to place the accent on a minimalist and contemporary or classic and traditional tone. The possibilities and combinations are truly endless. Just like the collection for double glazing, also in this case the preparation and assembly of the profiles with the specific joints is simple and does not require complex equipment.

PROFILI DECORATIVI PER VETRO CAMERA

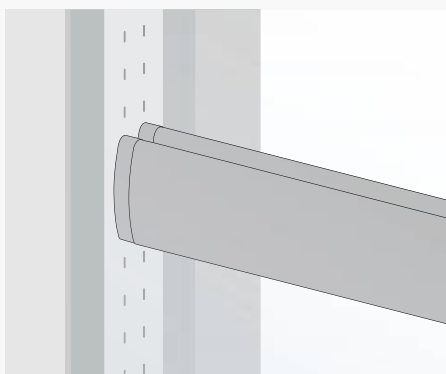

DECORATIVE PROFILES FOR DOUBLE GLAZING

Sin dalla loro origine le nostre griglie decorative per vetro camera si sono proposte come l'alternativa ecologica più valida al piombo, materiale tradizionalmente utilizzato per ottenere l'effetto "stile inglese".

I profili decorativi vengono fissati ai distanziatori attraverso appositi terminali, possono essere montati in senso verticale od orizzontale, e poi incapsulati all'interno del doppio vetro rimanendo così completamente protetti da agenti esterni e intemperie.

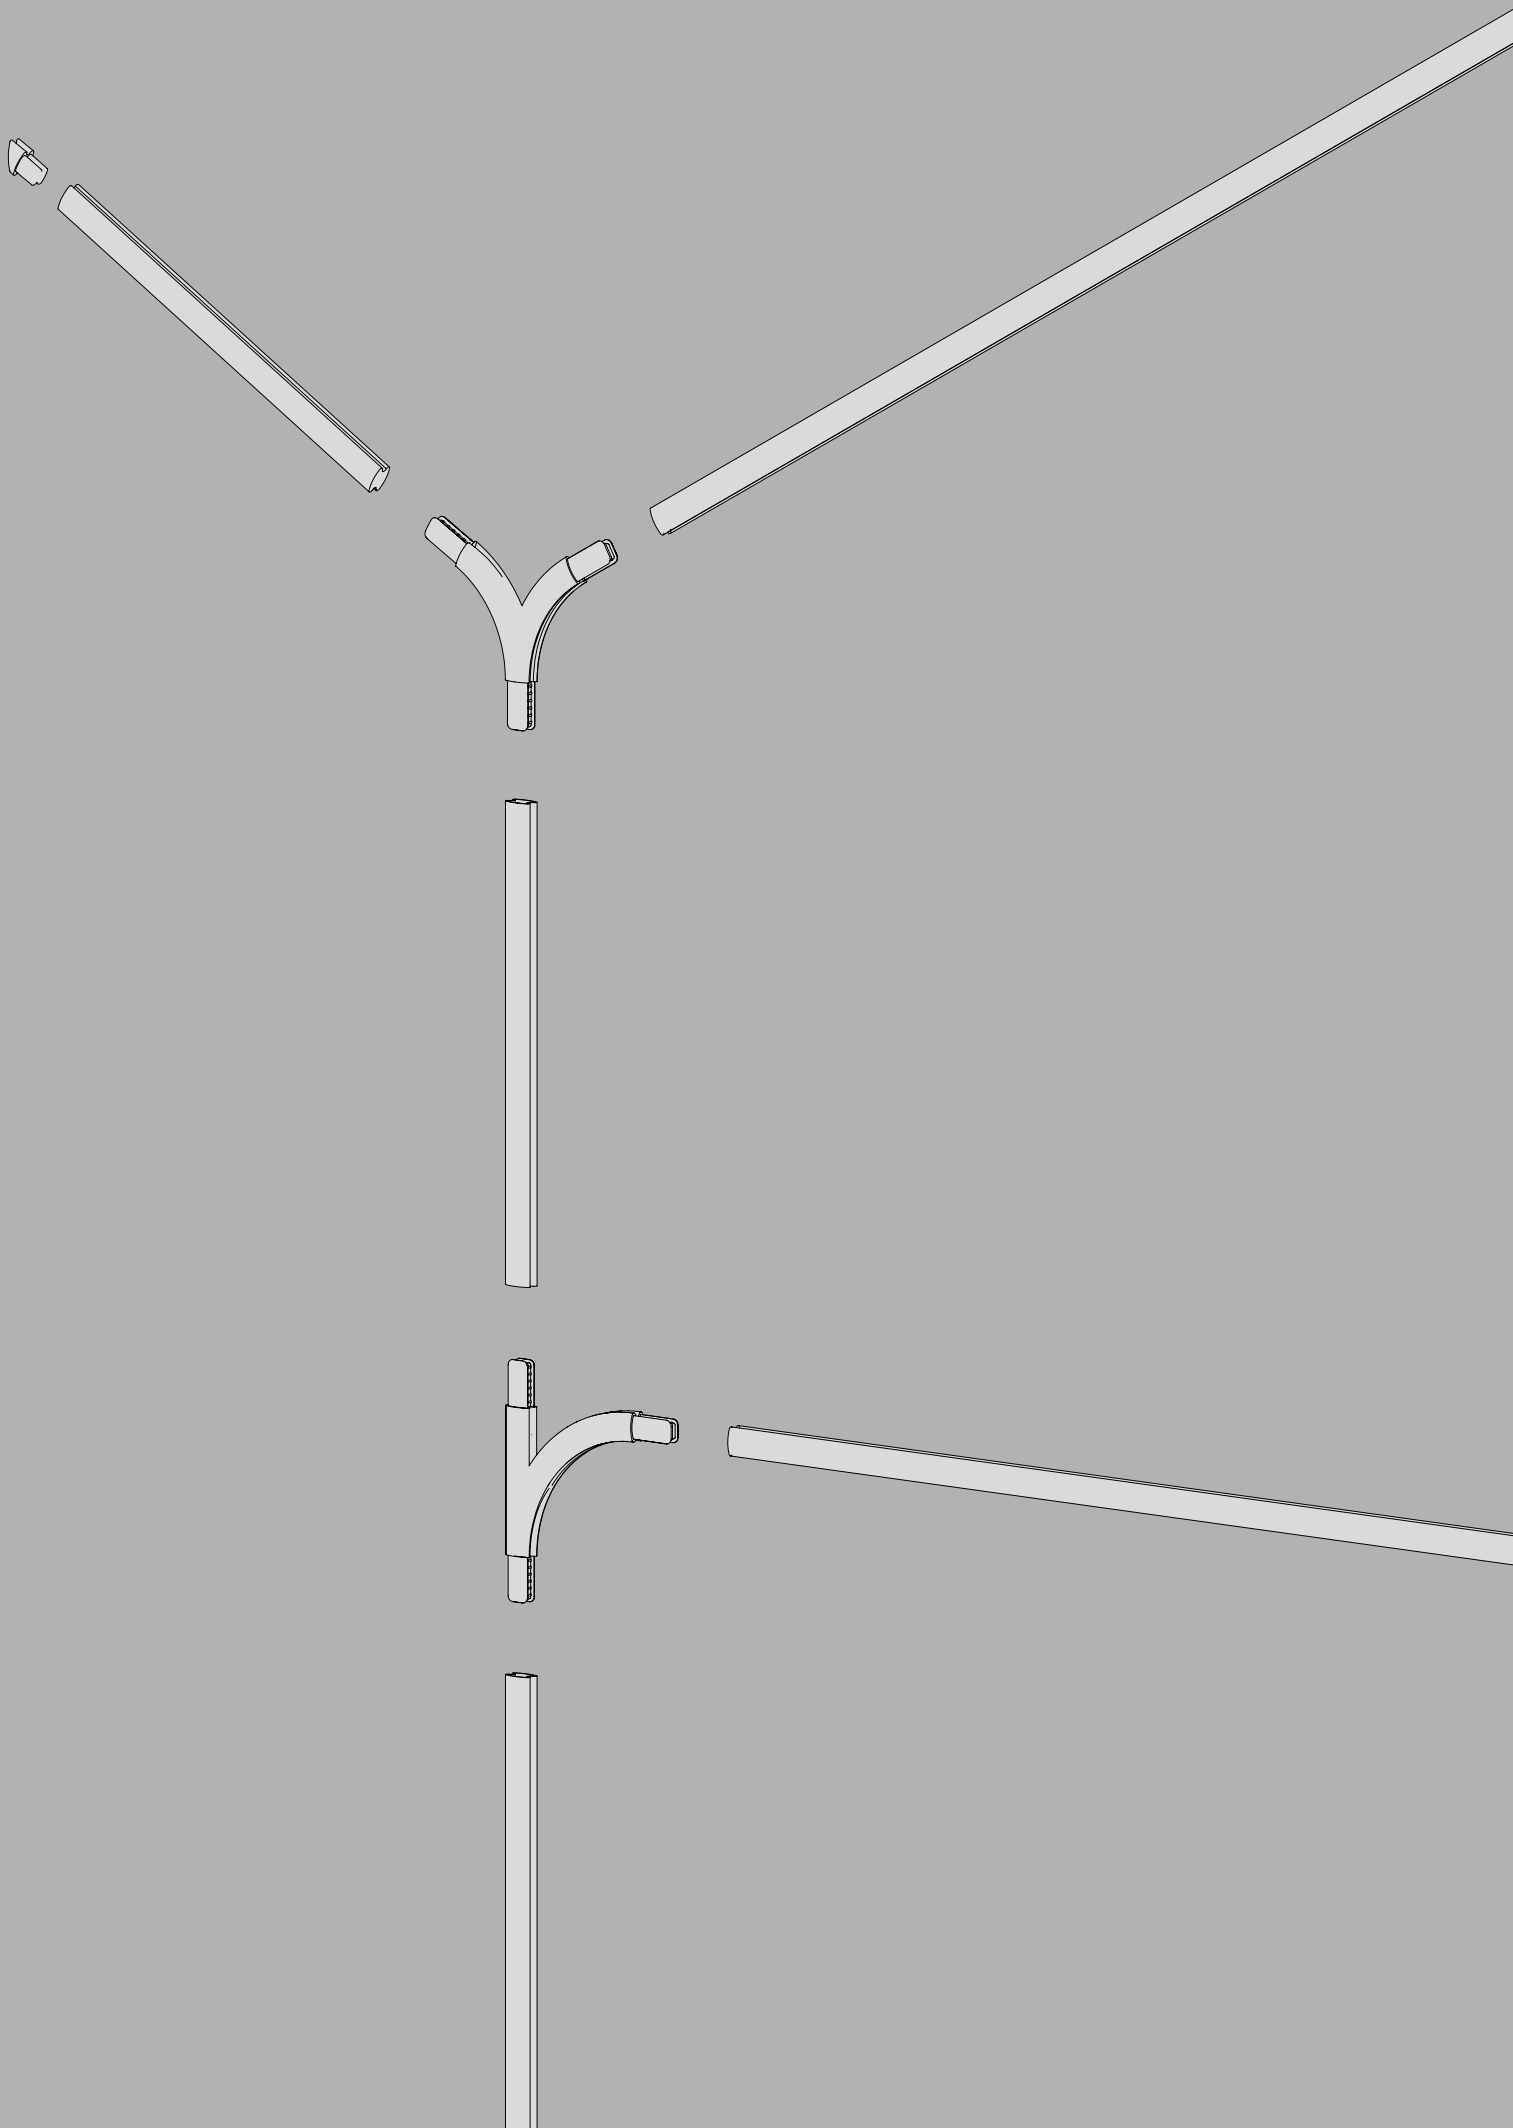

Le finiture di altissima qualità dell'alluminio, sia anodizzate che pre-verniciate, garantiscono la lunga durata del prodotto.

Since their origin, our decorative grids for double glazing have been proposed as the most valid ecological alternative to lead, a material traditionally used to obtain the "English style" effect.

The decorative profiles are fixed to the spacers through special terminals, they can be mounted vertically or horizontally, and then encapsulated inside the double glass, thus remaining completely protected from external agents and bad weather.

The high quality aluminium finishes, both anodized and pre-painted, guarantee the long life of the product.

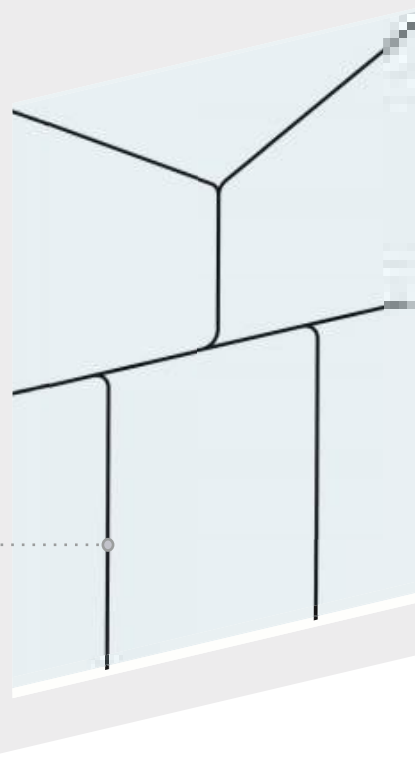

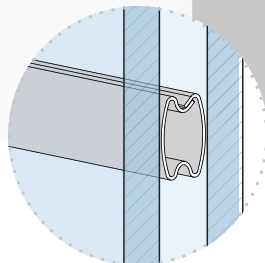

FBS 1323 WAY

design Gio Tiroto

Una collezione contemporanea di sistemi decorativi per vetro camera, giunti e accessori che consentono abbinamenti sorprendenti dalle linee essenziali e al contempo sinuose.

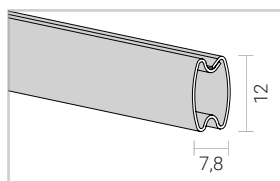

A contemporary collection of decorative systems for double glazing, joints and accessories that allow surprising combinations with essential yet sinuous lines.

PROFILI DECORATIVI AUTOADESIVI PER VETRO PIANO (ASTRAGAL bars)

*SELF-ADHESIVE DECORATIVE PROFILES FOR FLAT GLASS
(ASTRAGAL bars)*

La moderna rivisitazione delle tradizionali finestre “stile inglese” è possibile grazie all'applicazione dei nostri profili, forniti con biadesivo, su entrambi i lati del vetro piano. Il risultato è di grande effetto, il vetro risulta ripartito in diverse sezioni con tutti i vantaggi che derivano da questa facile e agevole applicazione. Ideali per creare motivi decorativi anche su diversi materiali e superfici come specchi, boiserie, carta da parati, pannelli in genere. Il noto e affidabile nastro adesivo originale Tesa è estremamente robusto e fornisce una presa sicura per tutta la vita dei prodotti.

The modern reinterpretation of the traditional “English style” windows is possible thanks to the application of our profiles, supplied with double-sided adhesive, on both sides of the flat glass.

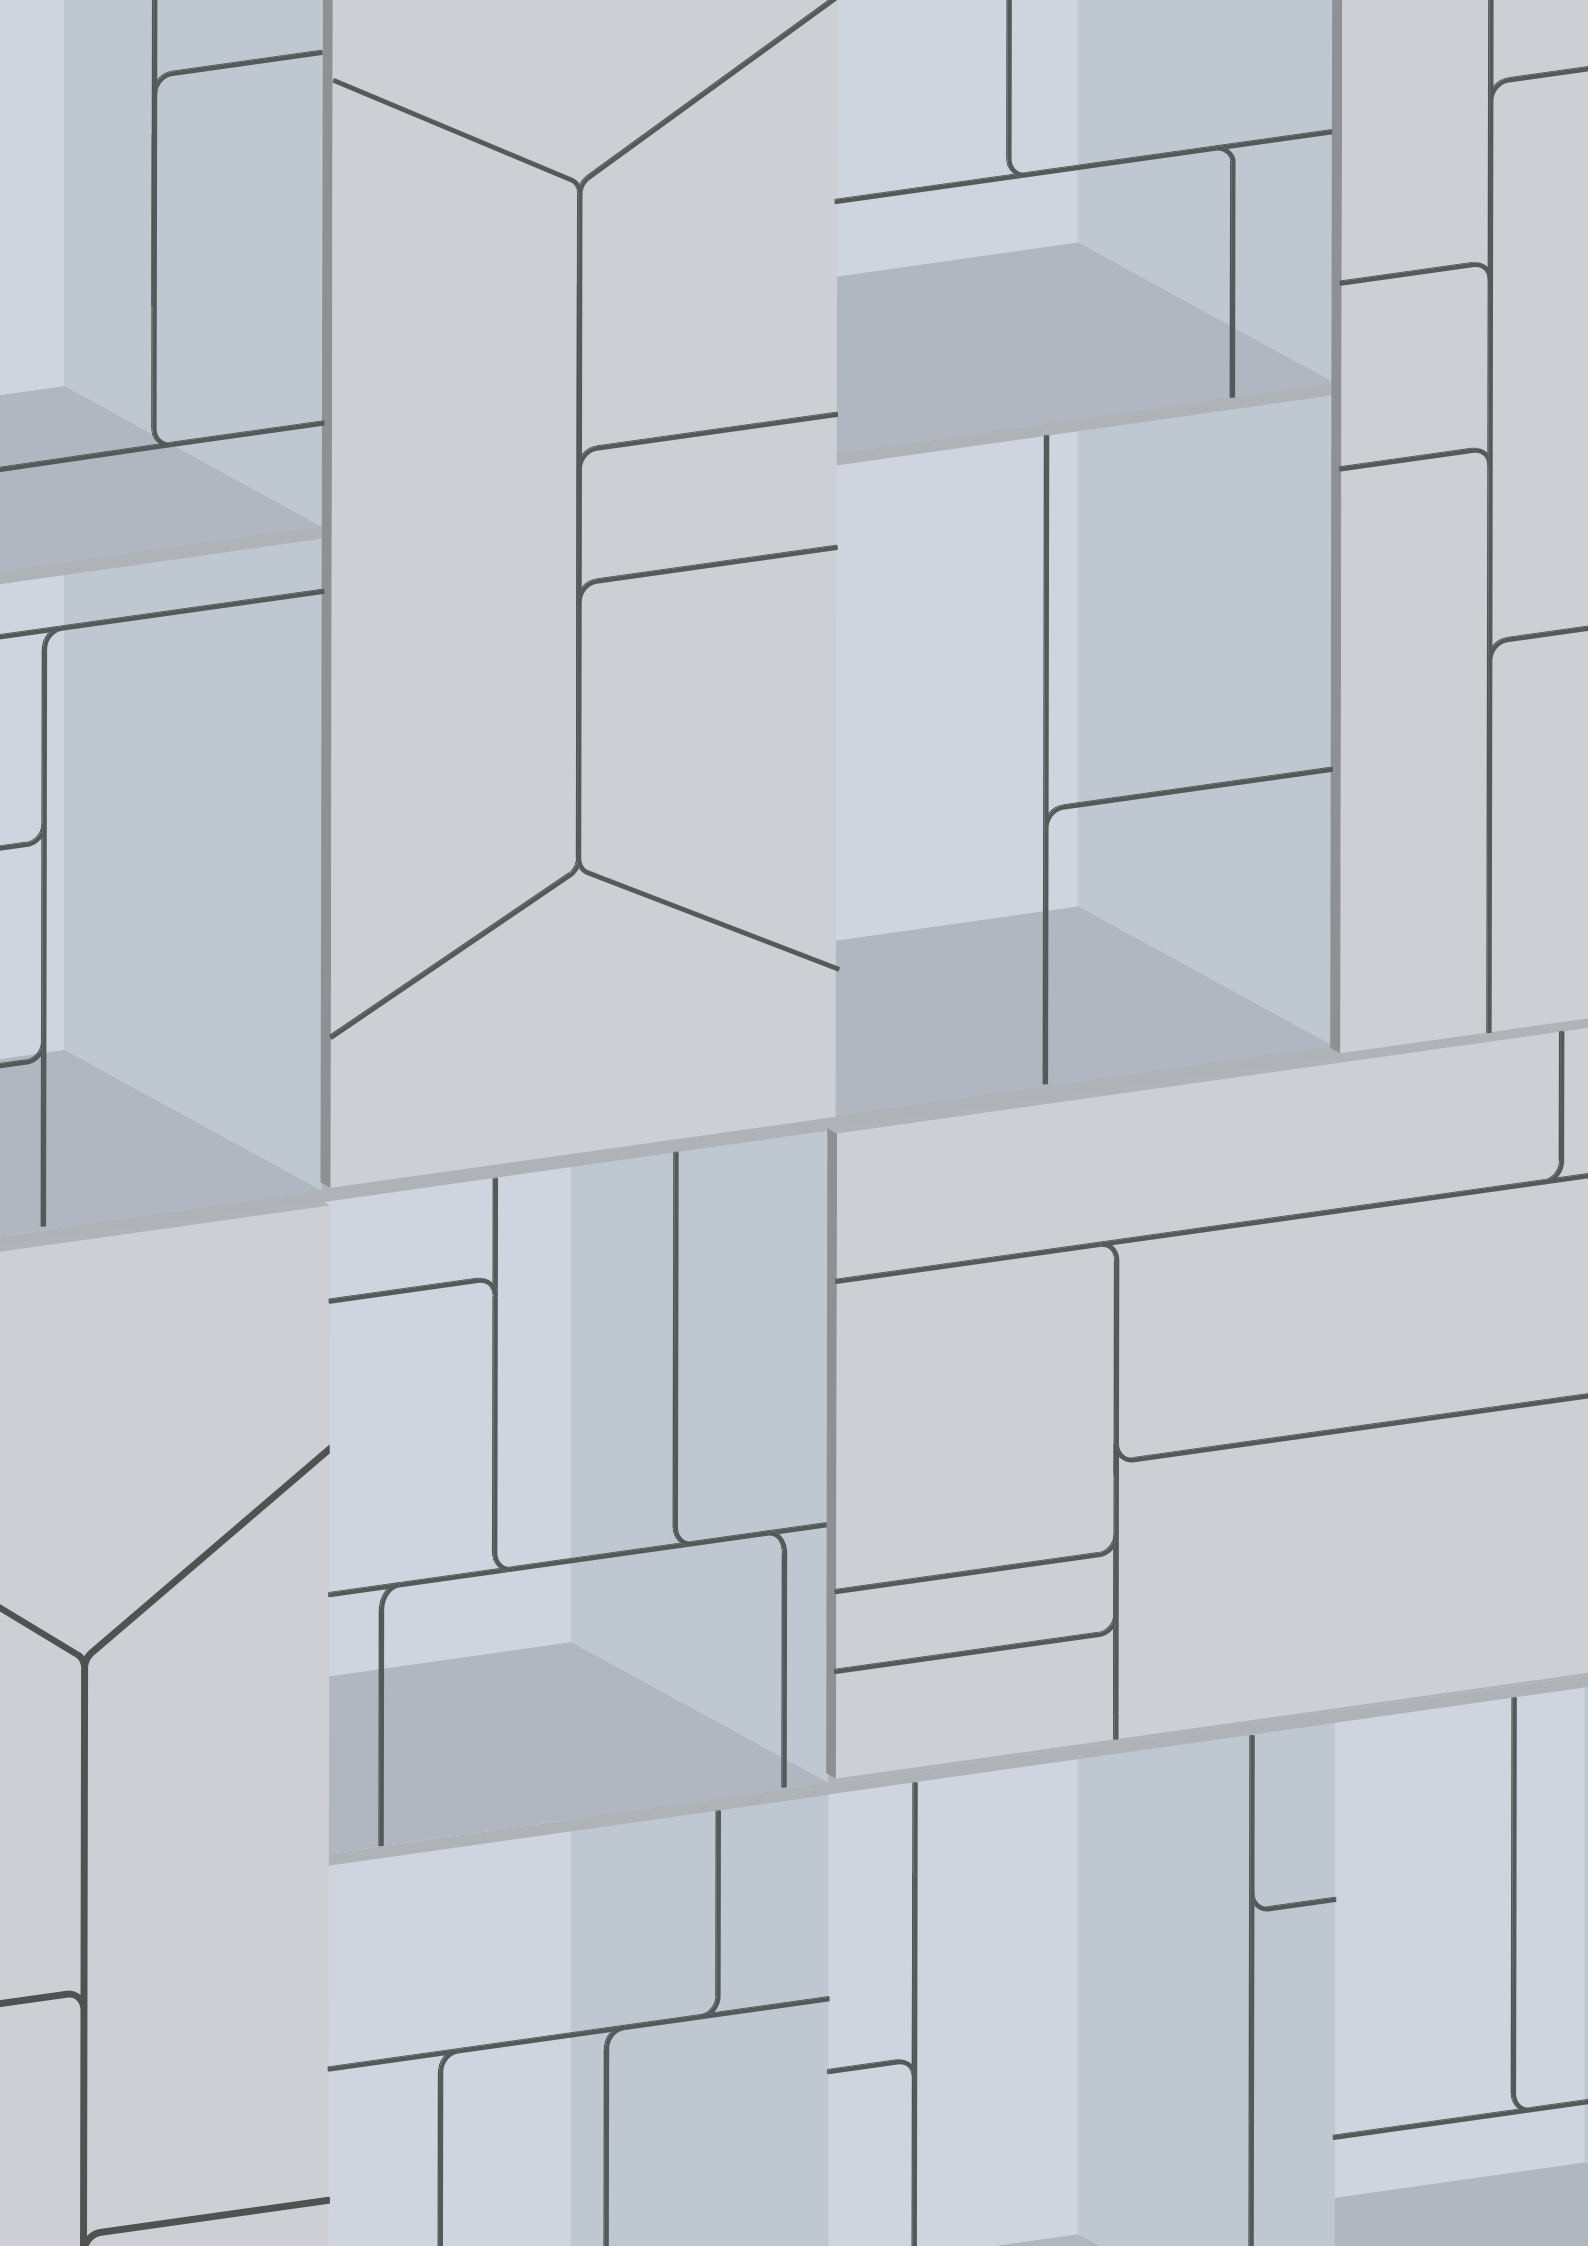

The result is impressive, the glass is divided into different sections with all the advantages that derive from this simple and easy application.

Ideal for creating decorative motifs even on different materials and surfaces such as mirrors, boiserie, wallpaper, panels in general.

The well-known and trusted Tesa Original adhesive tape is extremely robust and provides a secure hold for the life-time of the products.

SPECIFICHE TECNICHE

TECHNICAL DETAILS

ALLUMINIO ANODIZZATO

ANODIZED ALUMINIUM

Le accattivanti finiture anodizzate derivano da materie prime e da lavorazioni eccellenti che ne garantiscono la qualità e durata nel tempo. Sono ideali per gli ambienti contemporanei dalle linee essenziali poiché si integrano perfettamente con i materiali innovativi e moderni nonché agli elettrodomestici.

The appealing anodized finishing come from excellent raw materials and processing with guarantee their quality and duration in time. They are ideal for contemporary and essential contexts because they match innovative and modern materials perfectly as well as electrical appliances.

TRATTAMENTI PER DECORI E CONNETTORI

DECORS AND CONNECTORS SURFACE TREATMENTS

Quando si tratta di finiture dei decori e connettori, ci sono due opzioni: la Galvanica e la metallizzazione PVD. Mentre la prima è stata la scelta preferita di FBS per anni, la seconda sta rapidamente guadagnando popolarità in molti ambiti di produzione. Presso la nostra azienda, offriamo entrambe le tecniche per soddisfare le diverse esigenze dei nostri clienti. I nostri prodotti Made in Italy sono progettati per resistere alla prova del tempo. Con i nostri trattamenti superficiali, garantiamo una perfetta corrispondenza di colore con le nostre barre in alluminio, creando un prodotto finale di alta qualità.

When it comes to surface treatments for decors and connectors, there are two popular options: galvanic electroplating and PVD coating. While the former has been the preferred choice of FBS Profilati for years, the latter is quickly gaining popularity in many manufacturing circles. At our company, we offer both techniques to meet the varying needs of our customers. Our Made in Italy products are designed to stand the test of time. With our surface treatments, we ensure a perfect color match with our aluminum bars, creating a cohesive and high-quality end product.

ALLUMINIO PREVERNICIATO

PREPAINTED ALUMINIUM

La gamma dei toni pre-verniciati spazia dai colori più neutri come il bianco e il nero, che si prestano ad abbinamenti più classici, fino alle tonalità simil-anodizzate per un interior design contemporaneo e ricercato.

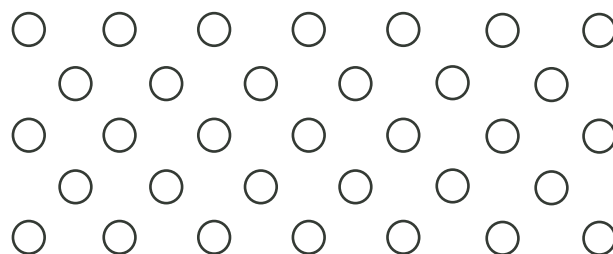

The range of pre-painted shades ranges from more neutral colours such as white and black, suitable for more classic combinations, to simil-anodised finishes for a contemporary and sophisticated interior design.

ALLUMINIO MICROFORATO

PERFORATED ALUMINIUM

Con aperture rotonde e sfalsate, il metallo perforato è un materiale industriale utilizzato in numerosi progetti di interni. Con la sua trasparenza, il materiale funziona bene con altri elementi e aiuta a creare profondità. È apprezzato soprattutto per la sua qualità grafica e l'effetto ottico che produce quando viene stratificato.

With round and staggered openings, perforated metal is an industrial material that is used in a number of interior projects. With its transparency, the material works well with other elements and helps create depth. It is mostly appreciated for its graphic quality and the optical effect it produces when layered.
